River Oaks Improvement Association Attention: Ms. Linda Saxton, President 2 S 539 River Oaks Drive. Warrenville, IL 60555

RE: West Branch DuPage River Clean Up – Kerr McGee (CBBEWL Project No. 00-314)

Dear Ms. Saxton:

We are writing to update you on the progress of the clean up of the West Branch of the DuPage River related to the former Kerr McGee, now Tronox, site in West Chicago. Work has been proceeding since October 2004 to clean up areas contaminated with what is termed "targeted material". This material consists of mine tailings that have traces of thorium, a radioactive element, within the tailings. There have been a number of newspaper articles related to this work in the past and a number of public presentations. I invite each of you to attend the August 22 public information meeting to be held in the City of Warrenville's City Hall at 7:00pm, in order to ask questions or learn more. A notice regarding this public information session will be coming out from the EPA shortly.

In the immediate future, you will notice the construction of a contractor's staging area at the corner of Mack Road and Route 59. This staging area will consist of the contractor's construction trailers and workforce mobilization and storage area, as well as a rather large stockpilie of topsoil harvested from a Forest Preserve District site that will be used in restoration of those areas excavated for the clean up. Note that the topsoil stockpile is not targeted material and does not include material that is subject to the clean up.

This staging and laydown area will be used in future phases of the clean up. However, at this time, there will be no movement of targeted material into or out of this particular area.

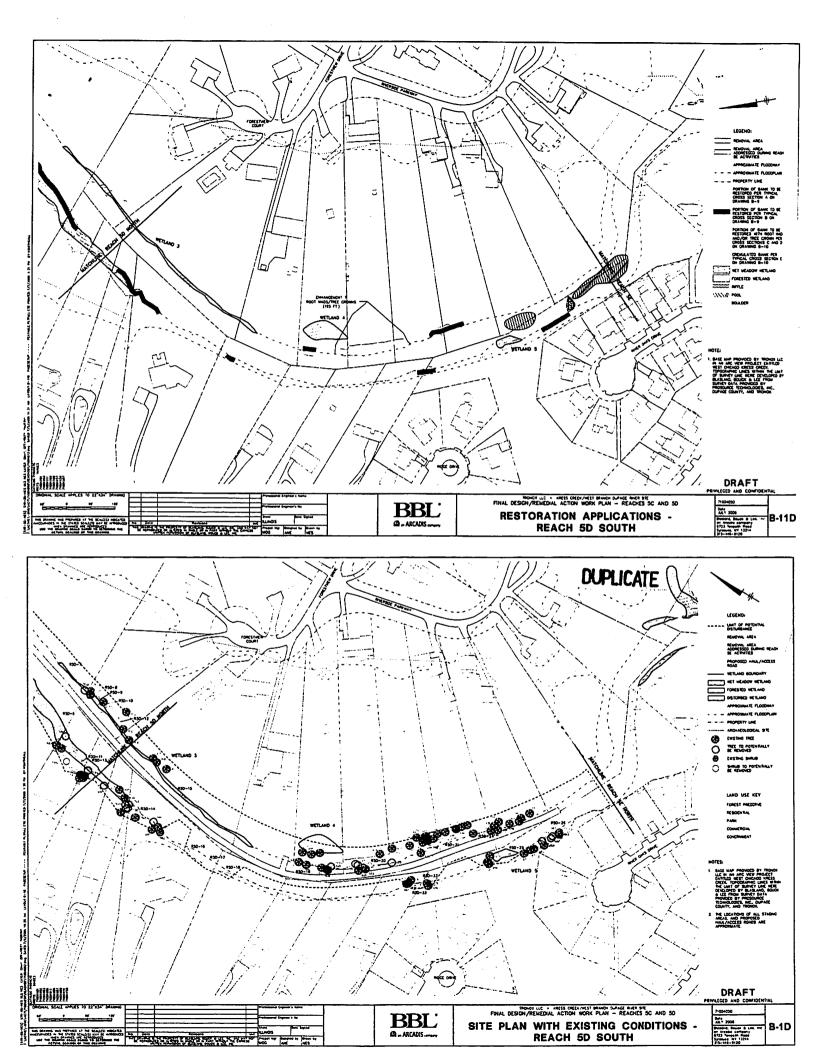

As of the writing of this letter, the removal of targeted material has been completed on Kress Creek and on the West Branch of the DuPage River, north of Gary's Mill Road. Work will be beginning very shortly on that stretch of the river from Gary's Mill Road down to where Kress Creek joins the West Branch of the DuPage River. Work will continue for this year to the south, and depending on progress and weather conditions, is expected to continue down the West Branch until the project is done.

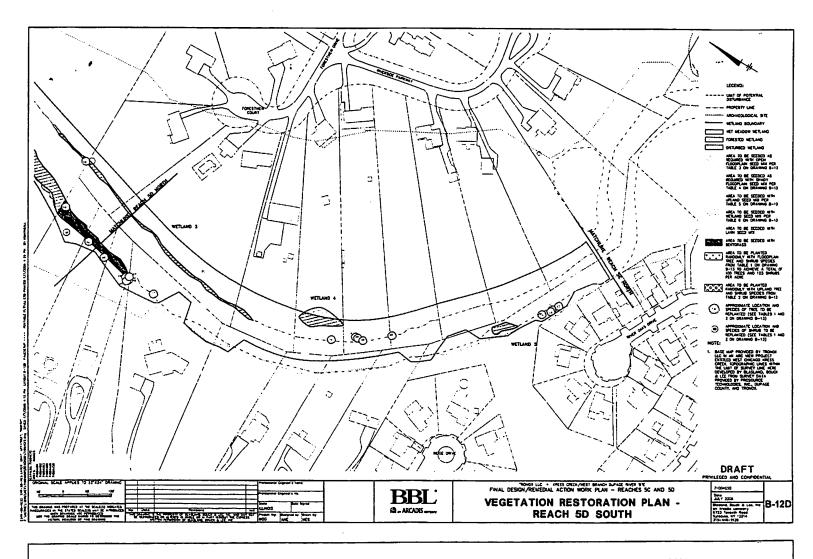

I have been appointed the "Local Community Representative" representing the City of Warrenville, the City of West Chicago, the West Chicago Park District, DuPage County, and the DuPage County Forest Preserve District with regard to this clean up. I am available to answer any questions or to follow up on any concerns that you may have with regard to this clean up. My office is in St. Charles and my phone number is (630) 443-7755, and I would be pleased to be of service with regard to the clean up.

Very truly yours,

John J. Wills, P.E., President Local Community Representative
